information quickly from vast volumes of data by searching with a keyword or other search criteria. Once you find the data, you can browse full-text of the content and print out it. For the list of major database, refer to page 24.

* If you wish to use e-Journals or database, you should apply for “Activation of IT Center Account” via website of IT center in advance. Alumni, local users, and students of cooperated universities may not use database.

For details on how to use KOALA, see pages 17 to 20. Location mark in the first line of call number tells you which category the material is in and where it is located. (See page 25).

When you are in the General Library, and “location” of the search result is displayed as 書庫, fill out 閲覧・貸出申込書 (Request form for using materials in stack rooms) on the PC desk and bring it to the Main Counter. If the material is located in the open-stack room on the 2nd floor or in Takatsuki, Takatsuki Muse, and Sakai Campus Libraries, you do not need to apply for using items because you have direct access to these stacks room. However, we highly recommend you to take memo of call number so that you can identify the location of the book in the shelf.
